MEDICAL MALPRACTICE

If you think you have a **Medical Malpractice Case?**

If you think you might have a case of medical malpractice please send us a detailed narrative so we can assess the case and if it's worth it for you to pursue through the court system.

The narrative must detail

- 1** all important dates and the names and locations of all doctors and hospitals,
- 2** you must explain your pre-existing health condition i.e. why you needed to see a doctor in the first place,
- 3** how your medical condition is worse after the medical malpractice,
- 4** if further treatment is contemplated to fix the problem,
- 5** whether you were working, what kind of job you were working at, and how your new injury affects your ability to earn a living,
- 6** what do you say the doctor did wrong under the circumstances.

Medical malpractice cases are difficult, expensive to prove and require experienced lawyers. If you have a copy of your medical records that will help a lawyer assess the case.

Girones Lawyers offers legal help with no upfront fees for car accident victims, disability denials, and medical and birth injury malpractice cases.
